## Quality Statement Policy

Our policy is to keep pace with the changing needs of the customers in relation to Quality. We have always aspired to keep our clients requirements at the top of our agenda irrespective of all the constraints and we are proud to state that we have lived up to our commitments and have maintained our relationship with our esteemed clients. It is due to our dedication, hard work, and practical Strategic approach that we have been able to carve a nice for ourselves in the industry.

### VISION

Our vision is to be recognized as the leading Pharmaceutical Company who values for customers & their requirements in the field of machine.

### MISSION

To provide high quality professional services for Pharmaceutical projects in India

### VALUES

Respect, Excellence and responsibility. Our core values are based on the company's history, and the company has been built around the core values. They define the way to do business and the way to behave. The core values inspire and challenge our employees in their efforts to create a successful company – financially, socially and environmentally

## Maximize Values

We will focus on product quality through constant emphasis on process quality and Pharmaceutical, which we will enhance with careful attention to our customer's needs so as always to deliver superior value to our customers.

## Customer Satisfaction

Customer is at the heart of our strategy and we want to deepen our relationships to maximize growth and profitability. 'Shaping relations' means finding out why customers make the choices they do and then using this knowledge effectively.

## Safety Program

The company maintains and observed a rigorous safety program. A permanent safety inspector is employed working directly under the operations manager and alongside the project managers to oversee and enforce safety in the project sites.

The company has not incurred a single loss of man hours due to accidents during the entire period of its operation till now. Safety standards are always upheld. Protective clothing is issued, and its use is made compulsory. In addition, any safety regulation applicable on its various sites is fully complied with and enforced.

The company lives by its standards: Safety promotes awareness, prevents accidents and improves performance. It is our objective and requirement for the project which are set out below

1. Zero accidents.
2. Zero environmental incident.
3. All activities to be carried out in accordance with the standard safety working practice and procedures.
4. All employees and contractor's visitors assigned to the project are responsible for their own safety and for those around them..
5. In the event of any accident prompt action will be taken in addressing the situation.
6. Regular safety toolbox meeting will be held with the workforce.
7. Maintaining clean and tidy site is of the utmost importance.
